

Dear Hiring Manager,

As a last year student in the Computer Programmer Analyst program at George Brown College, I am confident that my qualifications and experience will be of significant value to your company. I have a technical background in Industrial Engineering, where I acquired logical and Project Management skills. I am passionate about coding and I strive to write clean and concise code that is efficient and easy to be understood and modified by others.

I have been working during the past 8 months on the development of a web application. As a Team Lead and Project Manager, I am responsible for setting the goals and defining tasks, estimating their efforts, as well as engaging in the morale of the team. As for the development side, I work mainly on the Back-End development and database administration, using Java, Spring MVC and MySQL; I am also delivering a number of Front-End tasks, using HTML5, CSS3, JavaScript, jQuery and AJAX. Lastly, I am responsible for the deployment and monitoring of the application using Amazon Web Services.

I am a hard-working and resourceful person with a technical background and I believe I can be an important asset for your company. I thank you, in advance, for your consideration and look forward to hearing from you at your convenience. You may contact me at (647) 987 2220, or at alinenalencar@gmail.com.

Sincerely,

Aline Alencar
